

This is the
NEW  **GRAVELY**
14 hp Riding Tractor

**New Performance . . .
More Real Satisfaction**

Now, 14 hp hitched to the Gravely performance Riding Tractor . . . more power than ever before!

Gravely is your kind of riding tractor because when top performance is what you want, you buy Gravely. And you gain the real satisfaction of using the best, of getting your jobs done quickly, efficiently, powerfully . . . while you go along for the ride!

Great performance with all-gear-and-steel-shaft drive, right down to and through the attachment. Instant control — forward, neutral or reverse with the flip of a hand lever . . . no clutching. Independent wheel brakes, short turning radius; Safety designed with all moving parts shielded. Plus rear engine design that gives you maximum traction for maximum performance.

Attachments for dozens of jobs, most of which go on and off without tools, in minutes.

Gravely is your kind of Riding Tractor. Because you want the best.

All-Gear-Drive Attachments Front or Center-Mounted—

Gravelly designs our Riding Tractors so the power attachments are mounted where they function best . . . front or center-mount. Power goes directly from the engine to the power attachments through steel shafts, gears, and heavy-duty universal joints. No belts to slip, wear or break under tough job stress.

Year-round Versatility

Dozens of attachments for all season use. A rotary plow, a choice of rotary mowers, pull-behind lawn and garden tools, a cart, and a massive snowblower. Gravelly performs for you constantly. And you change most attachments in minutes, without tools!

MOVE SNOW FAST with a powerful Gravelly 38", two-stage Snowblower. Moves any snow fast, puts it six inches or 60 feet away, controlled from your command position. Or use the SnowDozer—48 inches of heavy-duty steel that rolls the snow away!
